

>> Spinning into new markets

Orenda Energy Solutions, a recent addition to the UK medium wind market, has designed and manufactured a pioneering 51kW wind turbine with simple and safe servicing due to a patented design mechanism. The turbine has been designed for the farming/agriculture and rural/landowner communities who can optimise financial returns by utilising local "Feed-in Tariff" incentives.

Orenda's Skye(tm) turbine has a hydraulically hinged tower, designed to be lowered and

raised by one operator using a wrench. Its patented 'tilt' mechanism that has been designed to cut extensive and costly maintenance with servicing.

We are constantly looking at ways of expanding and modernising our fleet. The new vessels will feature the most up to date technology and designs

the Allied Vehicles Group has grown to become the UK's leading manufacturer and supplier of adapted and special purpose vehicles, as well as a provider of after-sales services in West Central Scotland.
